

Roman Blinds

Technical information for collection:

Roman Blinds

Features/Benefits

- Superb Value
- Easy to measure and install
- Un-lined roman blinds
- Blackout lining offered as optional extra
- Locking cord control with left or right preference
- Wide selection of colours

Measuring

The width and drop for each blind must be clearly specified, to the nearest 0.1cm.

Please be aware of the following when measuring:

| | max width | max drop | min width | min drop |
|--------------|------------------|-----------------|------------------|-----------------|
| Without Join | 130cm | 195cm | 45.7cm | 73cm |
| With Join | 183cm | 196cm | 45.7cm | 73cm |

These restrictions are imposed as a limit to the effective operation of the blind. The order form also needs to specify which measurement has been taken:

Exact

This measurement is the exact area you would like the blind to cover

Recess

This measurement should be calculated by measuring the recess width from wall to wall in 3 places and the drop from the top of the recess to the window sill in three places

Allowances

Please refer to our how to measure roman blinds page for allowances made to this product.

Operation

- Locking cord control with left or right preference
- Universal face fix/ top fix bracket supplied
