- 9 different shades available 35mm, & 50mm slat widths
- Tilt control cords on the left and raise/lower control cords on the right
- Easy to use
- Easy to clean

Measuring

The width and drop for each blind must be clearly specified, to the nearest 0.1cm
Please be aware of the following when measuring:

	max width	max drop	min width	Min drop
35mm	240cm	240cm	30cm	20cm
50mm	242cm	240cm	30cm	20cm

The order also needs to specify which measurement has been taken:

Exact

This measurement is the exact area you would like the blind to cover

Recess

This measurement should be calculated by measuring the recess width from wall to wall in 3 places and the drop from the top of the recess to the window sill in three places

Allowances

Please refer to our how to measure wooden blinds page for allowances made to this product.

Stacking

Due to the thickness of the wood slat it is important that you are aware of the stack size for the blinds. The following details are for guidance only.

Drop of Blind	35 mm blind	50 mm blind
50cm	11cm	11cm
100m	16cm	15.5cm
150mm	20cm	20cm
200mm	25cm	24.5cm
250mm	29.5cm	29cm
300mm	34cm	33.5cm

Slat Width

Choose from a slat widths of either 35mm or 50mm (See individual slats for availability)

Operation

- Each blind can be tilted, raised and lowered by separate controls.

- Cords are used to raise and lower the blind
- All control cords and wooden acorns are colour co-ordinated with the wood slats.
- Each blind is supplied with split controls only with tilt cords on the left and raise/lower cords on the right.

Options

- Blinds only available with ladder cord.

Fittings

A valance colour coordinated to the wood slats is also included. Blinds measured Recess or Exact will be supplied with a straight valance only

Note:

A valance that covers the end of the rail is included with the blind (returns).

Additional Information

- 35mm blinds are supplied with a headrail that is 40mm wide x 40mm height.
- All blinds supplied with end fix brackets which can be top fixed, face fixed or side fixed. Larger blinds will be supplied with U shaped centre support brackets which can either be face fixed or top fixed.

Important Note:

- 50mm blinds are supplied with a headrail that is 51mm wide x 40mm height.
- Before ordering you are advised to read the '[how to measure wooden blinds](#)' page
- We work to a tolerance level of 4mm on Made to measure blinds.
